

D. Elective area

Module: Modern Aspects of Chemistry			
University/department/institute: Freie Universität Berlin/Department of Biology, Chemistry and Pharmacy/Institute of Chemistry and Biochemistry			
Responsible for the module: module lecturers			
Admission requirements: none			
Qualification aims: The students have deepened their knowledge of two special topics in chemistry. They have also gained insight into the state of current research and the everyday professional lives of chemists.			
Content: The topics are chosen according to availability.			
Teaching and learning units	Attendance (Semester hours per week = SH)	Forms of active participation	Study time (hours)
Lecture I	2	Test	Attendance L I Preparation and follow-up L I 30 45
Lecture II	1	Test	Attendance L II Preparation and follow-up L II Examination preparation, examination 15 30 30
Language of instruction		German or English	
Compulsory regular attendance		Attendance recommended	
Study time, total hours		150 hours	5 CP
Duration of module		One semester	
Module offered		Every semester	
Application		Master's program in Chemistry
