

26th EMBL PhD Symposium

BIOLOGY OUTSIDE THE BOX

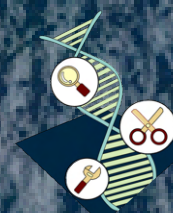

4-6
December
2024

KEYNOTE

Nils Christian Stenseth
University of Oslo

SPEAKERS

Lara Urban
Helmholtz Zentrum München

Marc Güell
Pompeu Fabra University

Nicholas Taylor
NNF Center for Protein Research

Marta Shahbazi
MRC-LMB University of Cambridge

Yen-Ping Hsueh
IMB Academica Sinica

Aude Bernheim
Institut Pasteur

Manu Prakash
Stanford University

Michelle Percharde
MRC-LMS Imperial College London

Christopher E. Mason
Weill Cornell Medicine

Meredith Christine Schuman
University of Zurich

EMBL Heidelberg

The 26th EMBL PhD symposium, “Biology Outside The Box”, represents the annual symposium’s mission to highlight research and researchers who are pushing the limits of our knowledge of biology. Organized entirely by EMBL predoctoral students of 2024, the symposium introduces a diverse ensemble of researchers presenting their work that redefines what was considered possible in biological research. With this symposium, EMBL students welcome you, fellow upcoming researchers, to a “uniquely student” occasion to celebrate the expansion of knowledge and to connect with other fellows of the scientific community.

Early Bird Registration Deadline

10 August 2024

Registration Deadline

18 October 2024

Abstract Submission Deadline

11 September 2024
